

Orgrain India®
CLOSE TO NATURE !

॥ आरोग्यम परमं भाग्यं स्वास्थ्यं सर्वार्थसाधनम् ॥

Enjoy the taste of Joy
We are harvesting the happiness for you

Our story begins from the farming fields of shekhawati belt in Rajasthan in 1995 & today we are proud to be a part of one of the biggest family of organic farmers across the country.

Our mission is to maximize our agricultural practices in a holistic & natural way without the use of any kind of harmful inputs, by this way only we can serve our environment, our Indian indigenous cows, our little farmers & all the human beings.

Orgrain India is always committed to serve 100% organic or natural products with best quality to the customers as well as the little farmers by procuring their authentic products with an organic farming support.

Organic Revolution Program

We Welcome those farmers to being a part of our Organic Revolution Program.
Who are intended and ambitious for the organic farmings.
Following are the main features in this aspect.

Focus to motivate more and more farmers to adopt organic farmings as per NPOP, NOP, and Other organic standards.

Farmer's training and skill development programs regarding organics.

Support for making soil health cards which help to nutrients & crop plannings accordingly.

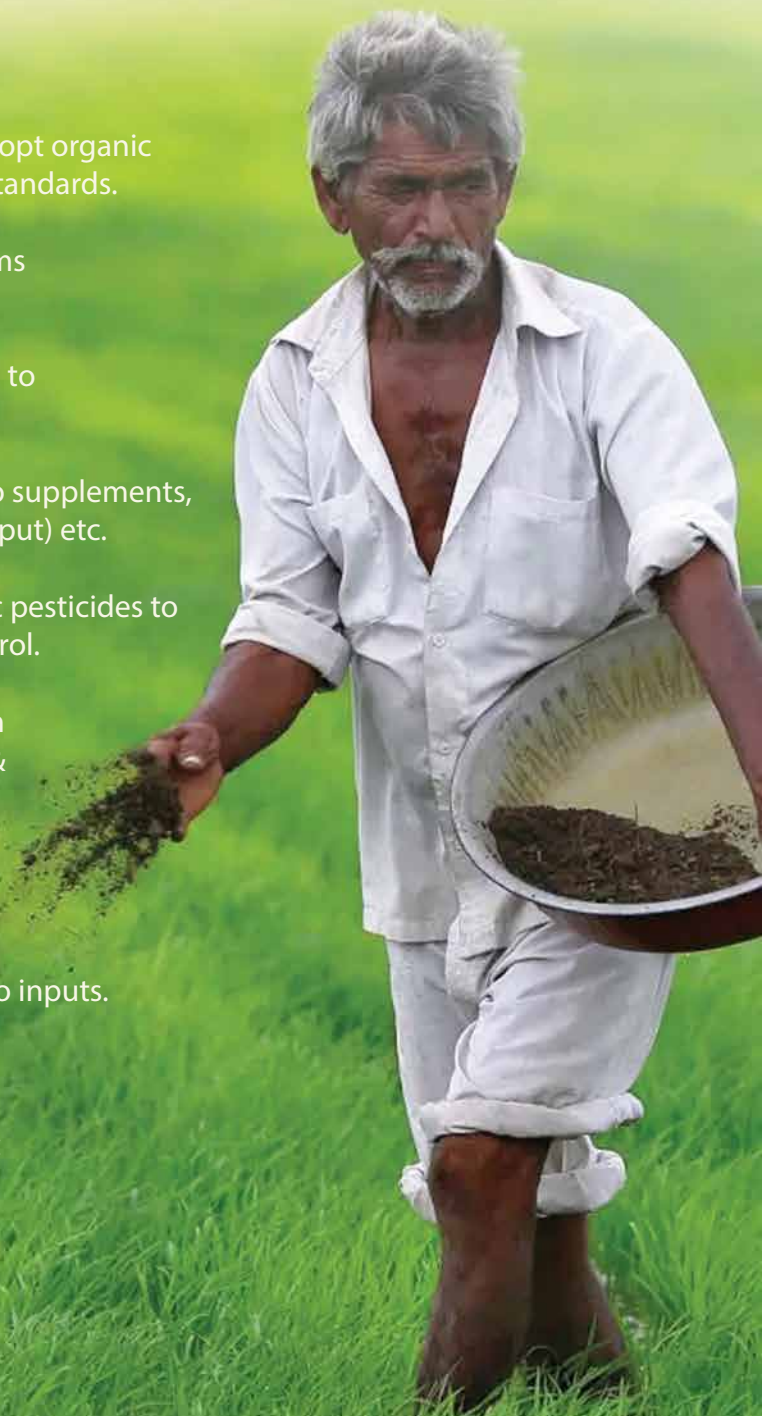

Replacement of inorganic inputs by certified bio supplements, jeevamrat (cow dung & urine-based enriched input) etc.

Provide help to suggest and use natural/organic pesticides to prevent harmful pests, insects, and disease control.

Insisting farmers to come under the certification process with natural organic farming practices & value addition of products that's an Organic Revolution Program.

Promote the use of agriculture mechanism, micro-irrigation systems for the big savings of water, energy, labor as well as smart use of bio inputs.

Bring awareness regarding the use of fresh natural/organic products in our lifestyle and alertness of the dark side of using inorganic chemicals, fertilizers, pesticides.
